

Prof. Dr. Alfred Toth

Einbettungstheoretische Semiotik II

1. Nachdem die einbettungstheoretische Semiotik in Teil I (vgl. Toth 2015) rein relational, definiert worden war, dehnen wir ihre Einführung im folgenden dahingehend aus, daß wir die semiotischen Einbettungsrelationen auf semiotische Zahlenfelder ausdehnen.

2.1. 0-stufige Einbettung

2.1.1. $O = 1$

$$S = [M, O, I]$$

2.2. 1-stufige Einbettung

2.2.1. $O = (0, 1)$

$$S = [[M], O, I]$$

$$\emptyset \quad O \quad I$$

$$M \quad \emptyset \quad \emptyset$$

$$S = [I, O, [M]]$$

$$I \quad O \quad \emptyset$$

$$\emptyset \quad \emptyset \quad M$$

$$S = [M, [O], I]$$

$$M \quad \emptyset \quad I$$

$$\emptyset \quad O \quad \emptyset$$

$$S = [I, [O], M]$$

$$I \quad \emptyset \quad M$$

$$\emptyset \quad O \quad \emptyset$$

$$S = [M, O, [I]]$$

$$M \quad O \quad \emptyset$$

$$\emptyset \quad \emptyset \quad I$$

$$S = [[I], O, M]$$

$$\emptyset \quad O \quad M$$

$$I \quad \emptyset \quad \emptyset$$

$$S = [[M, O], I]$$

$$\emptyset \quad \emptyset \quad I$$

$$M \quad O \quad \emptyset$$

$$S = [I, [O, M]]$$

$$I \quad \emptyset \quad \emptyset$$

$$\emptyset \quad O \quad M$$

$$S = [M, [O, I]]$$

$$M \quad \emptyset \quad \emptyset$$

$$\emptyset \quad O \quad I$$

$$S = [[I, O], M]$$

$$\emptyset \quad \emptyset \quad M$$

$$I \quad O \quad \emptyset$$

$$S = [[M], O, [I]]$$

$$\emptyset \quad O \quad \emptyset$$

$$M \quad \emptyset \quad I$$

$$S = [[I], O, [M]]$$

$$\emptyset \quad O \quad \emptyset$$

$$I \quad \emptyset \quad M$$

2.2.2. $O = 1$

$$S = [[M, O, I]]$$

$$\emptyset \quad \emptyset \quad \emptyset$$

$$M \quad O \quad I$$

$$S = [[I, O, M]]$$

$$\emptyset \quad \emptyset \quad \emptyset$$

$$I \quad O \quad M$$

2.3. 2-stufige Einbettung

2.3.1. $O = 2$

$$S = [[[M, O, I]]]$$

$$\emptyset \quad \emptyset \quad \emptyset$$

$$\emptyset \quad \emptyset \quad \emptyset$$

$$M \quad O \quad I$$

2.3.2. $O = (2, 0)$

$$S = [[[M]], O, I]$$

$$\emptyset \quad O \quad I$$

$$\emptyset \quad \emptyset \quad \emptyset$$

$$M \quad \emptyset \quad \emptyset$$

$$S = [I, O, [[M]]]$$

$$I \quad O \quad \emptyset$$

$$\emptyset \quad \emptyset \quad \emptyset$$

$$\emptyset \quad \emptyset \quad M$$

$$S = [M, [[O]], I]$$

$$M \quad \emptyset \quad I$$

$$\emptyset \quad \emptyset \quad \emptyset$$

$$\emptyset \quad O \quad \emptyset$$

$$S = [I, [[O]], M]$$

$$I \quad \emptyset \quad M$$

$$\emptyset \quad \emptyset \quad \emptyset$$

$$\emptyset \quad O \quad \emptyset$$

$$S = [M, O, [[I]]]$$

$$S = [[[I]], O, M]$$

$$M \quad O \quad \emptyset$$

$$\emptyset \quad O \quad M$$

$$\emptyset \quad \emptyset \quad \emptyset$$

$$\emptyset \quad \emptyset \quad \emptyset$$

$$\emptyset \quad \emptyset \quad I$$

$$I \quad \emptyset \quad \emptyset$$

$$S = [[[M, O]], I]$$

$$S = [I, [[O, M]]]$$

$$\emptyset \quad \emptyset \quad I$$

$$I \quad \emptyset \quad \emptyset$$

$$\emptyset \quad \emptyset \quad \emptyset$$

$$\emptyset \quad \emptyset \quad \emptyset$$

$$M \quad O \quad \emptyset$$

$$\emptyset \quad O \quad M$$

$$S = [M, [[O, I]]]$$

$$S = [[[I, O]], M]$$

$$M \quad \emptyset \quad \emptyset$$

$$\emptyset \quad \emptyset \quad M$$

$$\emptyset \quad \emptyset \quad \emptyset$$

$$\emptyset \quad \emptyset \quad \emptyset$$

$$\emptyset \quad O \quad I$$

$$I \quad O \quad \emptyset$$

$$S = [[[M]], O, [[I]]]$$

$$S = [[[I]], O, [[M]]]$$

$$\emptyset \quad O \quad \emptyset$$

$$\emptyset \quad O \quad \emptyset$$

$$\emptyset \quad \emptyset \quad \emptyset$$

$$\emptyset \quad \emptyset \quad \emptyset$$

$$M \quad \emptyset \quad I$$

$$I \quad \emptyset \quad M$$

2.3.3. $O = (2, 1)$

$$S = [[[M]], [O], [I]]$$

$$S = [[I], [O], [[M]]]$$

\emptyset \emptyset \emptyset
